GWAR Information

AM I ELIGIBLE TO WAIVE THE GWAR?

Waivers for Post-Baccalaureate and Graduate Students

You will be exempt from the GWAR if you meet any of the four criteria below:

(1) You graduated from a CSU or UC since 1980.

(2) As of winter 2007, as a post-baccalaureate or graduate student, you earned the following test scores--provided the test(s) were taken since 1980:

**GMAT** 4.5 or higher on the writing portion of the GMAT

**CBEST** 41 or higher on the writing portion of the CBEST

**GRE** 4.5 or higher on the analytic writing portion of the GRE General Test

(3) Post-baccalaureate and graduate students who have one or more articles published as first author in a refereed professional journal may submit their work for review to the General Education Office* with a formal request to waive the GWAR.

(4) Post-Baccalaureate and graduate students who already have an MA or MS in any discipline that included a master’s thesis or project and are working on another degree or credential may submit their thesis or project for review to the General Education Office* with a formal request to waive the GWAR.

In the last two situations, waiver requests and supporting documents will be reviewed, and you will receive a decision in approximately two weeks.
GMAT vs GRE

GMAT General Info

Register through: https://www.mba.com/exams/gmat

The GMAT is taken by people who plan to attend business school and/or an MBA program. It’s used almost exclusively for admission to these types of programs.

The GMAT has four separate sections:

1. The Quantitative section has 37 questions.
   a. Multiple choice: Mainly algebra, geometry, and data sufficiency

2. The Verbal section has 41 questions.
   a. Multiple choice: Mainly grammar and sentence structure

3. The Analytical Writing Assessment consists of one 30-minute essay. (4.5 and above satisfies GWAR requirement) – Not required for CSU and UC Graduates.

4. Integrated Reasoning contains 12 questions. (Not considered in our MBA program)

Scoring

If you take the GMAT, the most important score you receive will be your composite score, which can range from 200 to 800. The composite score takes only your scores from the Verbal and Quantitative sections into account.

The score range for Analytical Writing is 0-6.

The GMAT is computer based, and it is an adaptive test. This means that, when you begin the Quantitative and Verbal sections, the first question you see in each section will be relatively easy. If you answered that question correctly, the next question will be slightly harder, and if you answered incorrectly, the next question will be slightly easier. This process continues throughout the entire section for both Quantitative and Verbal. Once you answer a question on the GMAT, you can’t go back to it. Adaptive testing is used to get accurate scores by selecting specific questions with varying difficulty levels from a larger pool.
GRE General Info

Register through: https://www.ets.org/gre

The most significant difference between the GMAT and the GRE is that the GRE is used as part of admissions for a wide variety of graduate school programs, while the GMAT is only used to apply to business schools.

The GRE has three major sections: Analytical Writing, Quantitative Reasoning, and Verbal Reasoning.

- Quantitative Reasoning has two 20-question sections (40 total)
  - Multiple choice: solve algebra, geometry, trigonometry
- Analytical Reasoning has two 20-question sections (40 total)
  - Multiple choice: sentence structure, vocabulary
- Analytical Writing consists of two essays, each of which you will be given 30 minutes to write. (4.5 and above satisfies GWAR requirement)
- The GRE will also include one 20-question research section which will not be included as part of your score. This will be either a Verbal or a Quantitative section, but you will not know which section the research section is in.

Scoring

Like the GMAT, the score range for GRE’s Analytical Writing section is 0-6, in half-point increments. Both Verbal Reasoning and Quantitative Reasoning are scored the same way. Their score range is 130-170, in one-point increments. The three section scores are generally reported separately and not combined into a single composite score.

The GRE gives you the option of computer based or written testing format and it is section-level adaptive. This means that your score on the first 20-question section of either Reasoning sections will affect the difficulty of the second 20-question section.

Unlike the GMAT, where each individual question determines the difficulty of the next question, on the GRE, your score on the entire section determines the difficulty of the next section on that subject. On the GRE, you can return to questions you have already answered within a section.
